

FortiGate/FortiWiFi® 60D Series

Integrated Threat Management for Small Networks

FortiGate/FortiWiFi® 60D Series

FortiGate 60D, 60D-POE, FortiWiFi 60D, 60D-POE

The FortiGate/FortiWiFi 60D Series are compact, all-in-one security appliances that deliver Fortinet’s Connected UTM. Ideal for small business, remote, customer premise equipment (CPE) and retail networks, these appliances offer the network security, connectivity and performance you need at a single low per-device price.

Consolidated Security Solutions

You get advanced threat protection, including firewall, application control, advanced threat protection, IPS, VPN, and web filtering, all from one device that’s easy to deploy and manage. With our FortiGuard® security subscription services you’ll have automated protection against today’s sophisticated threats.

Reduce the need for additional wireless access points by integrating a high-bandwidth “fat-client” into your FortiGate with the FortiWiFi 60D. It’s also a great option to secure mobile devices in BYOD environments with automatic device identification and customizable access and security policies.

VDOMs on the FortiGate/FortiWiFi 60D let you segment networks to enable guest and employee access, or protect things like cardholder data. You get the flexibility to match your business needs and meet compliance standards like PCI and HIPAA.
